Get BNB Balance for a single Address

[https://api.bscscan.com/api?module=account&action=balance&address=0x000000000000000000000000000000001004&tag=latest](https://api.bscscan.com/api?module=account&action=balance&address=0x000000000000000000000000000000001004&>tag=latest)

Get BNB Balance for multiple Addresses in a single call

[https://api.bscscan.com/api?module=account&action=balancemulti
&address=0x000000000000000000000000000000000004,0x63a9975ba31b0b9626b3430f7f627147df1f526,0x1
98ef1ec325a96cc354c7266a038be8b5c558f67&tag=latest](https://api.bscscan.com/api?module=account&action=balancemulti&address=0x000000000000000000000000000000000004,0x63a9975ba31b0b9626b3430f7f627147df1f526,0x198ef1ec325a96cc354c7266a038be8b5c558f67&>tag=latest)

Separate addresses by comma, up to a maximum of 20 accounts in a single batch.

Get a list of 'Normal' Transactions By Address

[Optional Parameters] startblock: starting blockNo to retrieve results, endblock: ending blockNo to retrieve results

<https://api.bscscan.com/api?module=account&action=txlist&address=0x00&startblock=0&endblock=99999999&sort=asc>

(Returned 'isError' values: 0=No Error, 1=Got Error)

(Returns up to a maximum of the last 10000 transactions only)

or

<https://api.bscscan.com/api?module=account&action=txlist&address=0x00&startblock=0&endblock=99999999&page=1&offset=10&sort=asc>

(To get paginated results use page=<page number> and offset=<max records to return>)

Get a list of 'Internal' Transactions by Address

[Optional Parameters] startblock: starting blockNo to retrieve results, endblock: ending blockNo to retrieve results

[https://api.bscscan.com/api?module=account&action=txlistintern
al&address=0x2c1ba59d6f58433fb1eae7d20b26ed83bda51a3&startblock=0&endblock=2702578&sort=asc](https://api.bscscan.com/api?module=account&action=txlistinternal&address=0x2c1ba59d6f58433fb1eae7d20b26ed83bda51a3&startblock=0&endblock=2702578&sort=asc)

(Returned 'isError' values: 0=No Error, 1=Got Error)

(Returns up to a maximum of the last 10000 transactions only)

or

<https://api.bscscan.com/api?module=account&action=txlistinternal&address=0x2c1ba59d6f58433fb1eae7d20b26ed83bda51a3&startblock=0&endblock=2702578&page=1&offset=10&sort=asc>

(To get paginated results use page=<page number> and offset=<max records to return>)

Get "Internal Transactions" by Transaction Hash

[https://api.bscscan.com/api?module=account&action=txlistintern
al&txhash=0x40eb908387324f2b575b4879cd9d7188f69c8fc9d87c901b9e2daaea4b442170](https://api.bscscan.com/api?module=account&action=txlistinternal&txhash=0x40eb908387324f2b575b4879cd9d7188f69c8fc9d87c901b9e2daaea4b442170)

(Returned 'isError' values: 0=Ok, 1=Rejected/Cancelled)

(Returns up to a maximum of the last 10000 transactions only)

Get "Internal Transactions" by Block Range

<https://api.bscscan.com/api?module=account&action=txlistinternal&startblock=0&endblock=2702578&page=1&offset=10&sort=asc>

(Returns up to a maximum of the last 10000 transactions only)

Get a list of "BEP-20 - Token Transfer Events" by Address

[Optional Parameters] startblock: starting blockNo to retrieve results, endblock: ending blockNo to retrieve results

<https://api.bscscan.com/api?module=account&action=tokenx&address=0x4e83362442b8d1bec281594cea3050c8eb01311c&startblock=0&endblock=999999999&sort=asc>

(Returns up to a maximum of the last 10000 transactions only)

or

<https://api.bscscan.com/api?module=account&action=tokenx&contractaddress=0x9f8f72aa9304c8b593d555f12ef6589cc3a579a2&page=1&offset=100&sort=asc>

(To get paginated results use page=<page number> and offset=<max records to return>)

or

<https://api.bscscan.com/api?module=account&action=tokenx&contractaddress=0x9f8f72aa9304c8b593d555f12ef6589cc3a579a2&address=0x4e83362442b8d1bec281594cea3050c8eb01311c&page=1&offset=100&sort=asc>

(To get transfer events for a specific token contract, include the contractaddress parameter)

Get list of Blocks Validated by Address

<https://api.bscscan.com/api?module=account&action=getminedblocks&address=0x9dd134d14d1e65f84b706d6f205cd5b1cd03a46b&blocktype=blocks>

or

<https://api.bscscan.com/api?module=account&action=getminedblocks&address=0x9dd134d14d1e65f84b706d6f205cd5b1cd03a46b&blocktype=blocks&page=1&offset=10>

(To get paginated results use page=<page number> and offset=<max records to return>)

** type = **blocks** (full blocks only)
